My next project is going to be making all of the Bioshock Infinite vigors. I'm starting with "Murder of Crows" (image attached).

The p

sure if burnt orange is a good fit though?

What DMC color/number do you think matches the picture?... Ver más

Hi! I'm here with a doubt, I'll be doing a Simpsons' pattern that calls for DMC 973, looking into my stash I couldn't find it but I do find some DMC 725. Do you think that would look good? Those of you who have done a Simpsons' pattern, what color have you used? Any help is appreciated. TIA!!! 😊

Hey all! Looking for some advice...I'm getting ready to start a pattern I bought to support Ukrainian designers (link in comments). I'm going slightly tweak the pattern to add a blue /yellow heart to middle of the moon (hope she doesn't mind 😊). What DMC color #s are you all using for Ukraine flag? I'm grabbing my floss today and want to use the proper shades
